#### APPLICATION FOR AMENDMENT OF WASTE MANAGEMENT PERMIT PR-4231

THIS APPLICATION is to be filed with the Regional Manager, Lower Mainland Region, 15326—103A Avenue, Surrey, B.C. V3R 7A2.

Any person who may be affected by the amendment to Permit PR-4231 described below may, within 30 days from the date of posting, publication, service or display, state in writing to the Minister how he is affected.

*Preamble*—The purpose of this application is (a) to increase the average daily tonnage of waste specified in Permit PR-4231 and (b) to relax the daily cover requirements specified in the letter of transmittal to Permit PR-4231.

The Corporation of the District of North Vancouver, 355 West Queens Road, North Vancouver, B.C. V7L 4K1, hereby applies for amendment(s), as described below, to Waste Management Permit PR-4231, granted on December 31, 1975, which authorized the discharge of typical municipal refuse, excluding hazardous wastes from domestic and commercial sources located at City and District of North Vancouver, District of West Vancouver, Bowen Island and Lions Bay, B.C., to the land.

#### AMENDMENTS REQUESTED

##### *Daily Tonnage*

The quantity of waste which may be discharged is an average of 230 tons per day at present.

The amended quantity of waste to be discharged is an average of 500 tons per day based upon current volume projected over 10 years with an annual growth rate of 2%.

#### *Daily Cover*

All waste is compacted and covered daily, at present, with the landfill site being open every day from 8 a.m. to 5 p.m., including Sundays and holidays.

Commercial and domestic waste disposal from municipal and private waste collection vehicles is only allowed from 8 a.m. to 5 p.m. on Mondays through Fridays and from 8 a.m. to 12 noon on Saturdays. The waste received on Saturday afternoons and on Sundays and holidays is delivered by municipal residents, and the vast majority of it is garden and lawn cuttings, tree trimmings, tree trunks and other wood wastes, together with an admixture of solid household waste, all of a non-putrescible nature. The volume of putrescible garbage included in this is so small as to be considered virtually negligible.

It is proposed that this material not be covered until the next normal working day following the Sunday or holiday as it does not decompose rapidly nor does it provide a food source for birds or rodents. All of this material will be compacted and covered during the first working day following disposal if this amendment is approved.

This application, dated on November 12, 1982, was posted on the ground in accordance with the Waste Management Regulations.
